RUSH MEDICAL COLLEGE

IN AFFILIATION WITH

The University of Chicago

Under the arrangement of affiliation with the University of Chicago, the instruction of the first two years of the medical course is now given wholly at the University in the spacious Hull Biological Laboratories—four buildings—and the Kent Chemical Laboratory. The students during these two years are members of the University student body as well as the Rush Medical College, and are entitled to all the privileges of University students. The work of the last two or clinical years, is given at Rush Medical College, in three commodious buildings, and also in the wards of the Presbyterian Hospital, which adjoins the college. Clinical instruction is also offered in the Cook County Hospital—1000 beds—in the immediate vicinity of the college, the Chicago Eye and Ear Infirmary, the West Side Hebrew Dispensary, St. Luke's Hospital, and other institutions in the city, full credit being given for such extra-mural work.

The requirements for admission to the medical course are equivalent to a four years' high school course of the best grade. Instruction is given continuously throughout the academic year, which is divided into quarters, known respectively as the Autumn, Winter, Spring and Summer quarters and beginning respectfully October 1st, January 1st, April 1st and June 20th. A recess of one week intervenes between the Autumn and Winter, and Winter and Spring quarters, and one month between the Summer and Autumn quarters.

SNELL AMERICAN CYSTOSCOPE. COLD LAMP--WATER OR AIR DILATATION--DIRECT VISION
SNELL AMERICAN CYSTOSCOPE COLD LAMP, WATER OR AIR DILATION, DIRECT VISION.

IN THIS INSTRUMENT ARE COMBINED

The successful features of all other American or European instruments constructed for bladder inspection or ureter catheterization together with the following 7 additional important advantages:

- 1st, Both ureters can be catheterized at the same operation through one and the same catheter chamber
- 2nd, One third larger field of vision is obtained than with any other double catheterizing cystoscope of same outside caliber.
- 3rd, We give you the same size field of vision as other double catheterizing cystoscopes but with the Snell American instrument of 5 sizes smaller caliber.
- 4th, You can use either water or air dilation easily and successfully with the same instrument.
- 5th, An acromatic lens system giving a large and magnified field without reflexes or rainbow hues.
- 6th, After both ureters have been catheterized and catheters are entirely outside of cystoscope (see technique) you can examine both ureters and ascertain positively by seeing whether catheters are still in the ureters or not.
- 7th, The most important and incalculable advantage is that when cystoscope is withdrawn from bladder and urethra, the catheters are not withdrawn (as is generally the case with all other instruments).

These 7 very important features are the result of over one hundred actual demonstrations on living subjects, demonstrations which have been made with and for a large number of the most prominent surgeons in the U. S. and if you are thinking of purchasing a cystoscope, you cannot afford to consider any instrument which does not give you these advantages.

THE Pennoyer Sanitarium

Kenosha, Wisconsin

A HOME FOR THE MENTAL INVALID.

Between Chicago and Milwaukee on the Northwestern Railroad facing Lake Michigan.

THE PENNOYER SANITARIUM has for 45 years given satisfactory care to many nervous invalids. All cases of general invalidism will be cared for in the same careful and painstaking manner as in the past. Hereafter a select class of mild, mental cases, alcoholic and drug habitues will be received. With the main building and the four outlying cottages a proper separation can always be maintained between the strictly nervous, the mental invalid and the drug habitue. Dr. George F. Adams, recently resigned first assistant physician at Gowanda State, (New York) Hospital, has become joint manager of the Sanitarium.

Both Dr. Pennoyer and Dr. Adams will reside in the Hospital, thus insuring personal attention to patients and constant supervision over all departments.

Any physician interested in a home-like environment for a mental invalid is invited to visit **THE PENNOYER**.

For illustrated booklet address the Managers.

PRELIETLIN ANODYNE LINIMENT

An ounce put up in an elegant perfume drop bottle

This is the smallest bottle of liniment and lasts the longest time of any remedy of the kind offered to the public. *It is better for the relief of pain than morphine or any internal drug. It contains no chloroform, which is generally found in other such medicines, to drug you by inhaling the vapor.*

It is penetrating relief liniment, the smallest, the most lasting and the best of all pain remedies. One ounce or two tablespoonfuls is sufficient to relieve One Hundred patients' sufferings. From time immemorial mankind has sought relief from pain. This is not only an anodyne to stop pain but is an antiseptic healing remedy, which is absorbed and eliminated by the kidneys, hence a sovereign REMEDY FOR BACKACHE. Doctors may send for a free sample and a large or small perpetual calendar, both of which last a long time. Get this at your druggists or direct from the German-American Surgical Co., of New York. Rush orders may be telephoned to 666 North or send a postal card for sample and a perpetual calendar and always order two or more bottles C. O. D. or send cash to German-American Surgical Co., of New York, 249 North Franklin Street, Chicago, Ill., U. S. A.

Irrigating Spiral Curette, the only auger curette which does not introduce septic materia into the Uterus Cavity. This is avoided by turning on the antiseptic solution first before entering the *os uteri*, thus filling the helical coil space with the solution, instead of the septic material in the vagina drawing into the uterus to fill the vacuum. This instrument detaches and removes the retained placenta *en mass*. Three sizes—Large, Small and Medium.

A HANDY INFORMER.

This device will meet the approval of the practicing physician who has a number of patients and no office girl to look after them—a combination we imagine that arises not infrequently. The cut shows clearly just what the thing is, and it is certainly neater and more convenient than a slate and pencil, or a collection of cards stuck in the door.

The indicator is $4\frac{3}{4}$ inches across the face, and the printing is in such bold-faced type that it is easily read at any reasonable distance. A turn of the knob in front of the dial, advises your waiting patients that you are engaged, with a request to them to please be seated, or that you are absent, to return at an hour indicated on the smaller dial below, or that you are out and do not intend to return that day.

It is made of spun brass, handsomely nickel plated, and as strong as it needs to be. It retails at \$1.25 and is well worth the price.

Purgasal { Never sold } or Purgative Salt Purgasal is Tasteless, Effervescent, Chemically Pure

Magnesium Sulphate, from which by our process the nauseating taste, the chief objection to this most valuable salt, has been removed without in any way impairing its therapeutic properties. Each teaspoonful (or dram) contains 30 grains dried Magnesium Sulphate, which is equivalent to 50 per cent. of the salt. **DOSE:**—As a laxative one or two teaspoonfuls in one-half a glassful of water. As a cathartic, two to four teaspoonfuls in a glass two-thirds full of water. We would ask the favorable notice of the medical profession to our Granular Effervescent specialty, Purgasal, which represents in itself the highest skill in the manufacture of this class of medicinal preparations. **PURGASAL** or Purgative Salt, is at once Laxative, Cathartic or Diuretic, according to dose and effect desired. It is readily and completely soluble, sparkling, effervescent, and of most agreeable flavor. Social stress is laid upon one quality it possesses, and that is, it **does not gripe**. **PURGASAL** will be found an excellent preparation in intestinal disorders, such as diarrhoea, dysentery, constipation, etc.; in various diseases of the liver, and lead poisoning, and as a refrigerant laxative in acute inflammatory disorders and fevers. It is the ideal preparation where a thorough unloading of the bowel is desired. **PURGASAL** is put up in Bottles holding 1 oz., \$1.00 doz.; 4 oz., \$2.50 doz.; 16 oz., \$12.00 doz.; and in such manner that the label is instantly removable. Purgasal can be readily obtained through any Chicago jobber.

Manufactured by **The Harris Chemical Co.** Manufacturers of all kinds of Granular Effervescent Salts, CHICAGO, U.S.A.

Monroe Street HOSPITAL

1044 W. Monroe St.

(Cor. Campbell Ave.)

CHICAGO

*A Hospital for the treatment
of all classes of cases except
the insane and others suffering
from contagious diseases.
Facilities for the Care of
Surgical Cases.*

The building is two
stories high, entirely detach-
ed, with light and pleasant
rooms, heated by hot water

and furnished in an elegant and appropriate manner. The aim has been to preserve all the comforts of home, while providing the essential details of a modern hospital. A special feature is made of the nursing and attention to the individual needs of patients. The advantages of the hospital are open to reputable physicians.

ROOMS, WITH BOARD AND NURSING, \$1.75 TO \$4.00 PER DAY.

Private Ambulance Service.

Telephone West 1250.

FRANK C. ROBINSON, M. D., Supt. and Res. Physician.

MEDICAL STAFF:

Albert I. Bouffleur, Surgeon-in-charge,	Cassius D. Wescott,	James B. Herrick,
B. W. Sippy, Arthur D. Bevan,	I. N. Danforth,	S. R. Slaymaker,
Thos. A. Olney,	Palmer Findley,	Chas. J. Rowan.

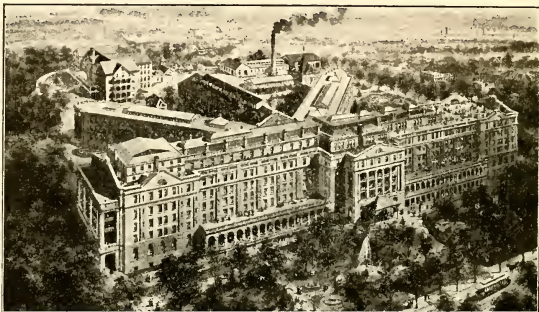

The Largest and Most Thoroughly Equipped of Sanitariums.

The Battle Creek Sanitarium management were the first to organize a thoroughly complete system of physiological therapeutics. Water-cures had existed before, eclectic institutions, mineral springs and similar establishments—but the Battle Creek institution was the first to organize a system and method embodying all physiological agencies.

The fire which consumed the main building of the institution Feb. 18, 1902, gave opportunity for complete reorganization and new equipment. The new structure is absolutely fire-proof; the mode of fire-proof construction employed was, of all so-called fire-proof constructions, the only one that stood the test of the recent conflagration in Baltimore.

One hundred and seventy-five rooms with private baths; six hydraulic elevators; electric lights; and private telephone in each room.

Spacious parlors on every floor, roof garden, dining-room and kitchen at the top. Beautiful outlook from every window.

Accommodations for eight hundred guests. Staff of thirty doctors; three hundred and fifty nurses.

Nearly forty years' experience in this institution has demonstrated that the great majority of chronic invalids of all classes, including many considered incurable, can be trained up to a state of healthful vigor by a systematic regimen based upon scientific principles, combined with a thorough going application of the resources of hydrotherapy, phototherapy, thermotherapy, massage, Swedish movements, Swedish gymnastics, electrotherapy, and the open-air treatment, guided by the findings of bacteriological, chemical, microscopical and other accurate methods of examination.

Special ward for surgical cases with perfect appointments.

Special departments for diseases of the eye, ear, nose and throat, and in charge of experienced specialists.

The Doctor's Opportunity

To get money out of his profession comes only in company with hard work. But these hard earned dollars can be made to earn many more.

MAKING MONEY GROW

Is easy if you place it in the right place at the right time. Our General Manager is a Maine man who knows how to make money fast. In partnership with a physician they took a quantity of small stockholders and with \$1500 capital earned \$330,000.00 in 18 months, paid it in CASH at Belfast, Maine. That's HISTORY. : : : :

We want a whole lot of physicians as partners, want them to come in on the ground floor. We respectfully invite progressive physicians to investigate the merits of : : :

NU-TRI-OLA

Preparations. They are something new and are winners. For instance, NUTRIOLA is a genuine Blood and Nerve Food, makes red corpuscles rapidly. NUTRIOLA SKIN FOOD cures the most obstinate skin diseases, gives relief in a few minutes. : : : :

We will send any physician full particulars about the Preparations, and also show him how to make money faster than ever before. Just a postal card giving your name is all that is needed. We pay the postage.

QUALITY

IF there is one thing that you want, when you go into a drug store, it is **QUALITY**. You want Quality in all drugs and chemicals; Quality in all prescription work; Quality in everything that has to do with medicine.

There can be no question about it! That is why our trade is so large. It is a recognized fact that our label on a bottle of medicine stamps it with Quality, because it never goes out on any bottle or box of medicine that does not possess Quality.

BB8 MICROSCOPE

This instrument as improved is the standard microscope for physicians and scientific men in general engaged in the highest class of microscopic investigation. The stand is of brass throughout, the finish below the stage being the new polished black alcohol-proof lacquer, increasing the utility and beauty of the instrument.

The BB8 microscope consists of the stand, $\frac{2}{3}$ inch, $\frac{1}{4}$ inch and $\frac{1}{12}$ inch oil immersion objectives, triple nosepiece, Abbe condenser and iris diaphragm, all packed in a polished mahogany case.

A complete outfit, the standard, \$100.00, subject to a discount of 10% for cash.

Additional Apparatus, Stains, etc.

American Creditors Agency -
Gentlemen - It gives me pleasure
to recommend you to members
of the medical profession as a
collecting agency. The accounts
plied with you for collection
were mostly bad or hopeless and
still you succeeded in collecting
over 60 %, which considering the
nature of the accounts was very
satisfactory to me.

D. A. E. Beelling

If this is not enough send for more.

Physician's Fee Table.

Intended to guide rather than to govern practitioners in making charges for services rendered to patients in average circumstances, under ordinary conditions.

The minimum and maximum figures have reference to the degree of responsibility and the time consumed in a given case, rather than to the pecuniary circumstances of the patient, which will often call for a lower charge, or may justify a higher one than is indicated in this table.

The fees here given for operations do not include after attendance.

CLOUGH'S DISTRIBUTING SERVICE

585-587 W. OHIO ST., CHICAGO, ILL.

TELEPHONE WEST 1870.

When you're tired of using poor Distributors when you find that the work of boys and would-be distributors will not bring business, then it stands you in hand to consult Specialists, we are Specialists in Distributing. We have devoted twenty years to it. What we know about distributing has cost us thousands of dollars and sleepless nights but we give you the benefit of it all free of cost. Dealing with us will save you many costly experiences and failures, which otherwise you must encounter. Our ambition is that every job of distribution may be a little better than the one previously executed and a small trial will convince you that our success and popularity is the result of years of untiring work and study along this line. We deliver packages to all classes of trade, tack up signs and can re-ship your advertising matter.

Let us figure on your next job.
